Five Raids and Arrests Made State Farm for Delinquent Women May be Abandoned July 1 Easter Sunday to be Fittingly Observed in Sonoma Churches

CLUB WOMEN WILL MAKE GREAT EFFORT TO RETAIN FARM

State Board of Control Declares Lack of Funds Make Closing of Buena Vista Institution Imperative.

It is generally reported that the State Board of Control has asked Blanche Morse how long it will take to wind up the affairs of the Farm for Delinquent Women at Buena Vista and close it. Miss Morse is said to have stated that it would not take very long, whereupon the Board of Control and Director of Institutions suggested that by July 1st the farm could be officially expunged. If the budget goes through without the \$200,000 which the institution would need to continue, it is certain the state will abandon the experiment.

A call to action went out over the state Thursday to the organized women of California to save the Industrial Farm for Women at Sonoma.

The call came from the State Industrial Farm Association, organized at Sacramento last week with Mrs. Aaron Schloss as state chairman.

The call followed close on the heels of the Board of Control's declaration to a small group Monday that the farm must die.

The Board of Control, it is understood, is absolutely opposed to continuing the rehabilitation work of the farm. During the conversation the members frankly stated their views and left no question as to their intentions.

Daniels is said to have declared: "If it is the last thing I do, I'll oppose that farm. It is a fad."

He is furthermore quoted as saying there are other institutions in the state of far greater importance and cited the home at Eldridge, which he hoped to have take over the farm.

In stating that they would not allow the farm to continue, the Board members are said to have declared that there is no money, that there would be no money, and that they were not for the farm.

There was a demonstration on the control of apple mildew, purple aphid and codling moth at the Z. Lane orchard yesterday afternoon.

Not since 1880 has there been such a dry March in Sonoma Valley, so farmers declare. That year rain finally came in April and lasted two weeks.

Don't forget to attend the annual ball given by Sonoma Lodge, I. O. O. F., at Union Hall, Saturday evening, April 7th. The usual good time awaits you. Admission 50c.—adv.

Mrs. Poppe Celebrates 94th Birthday

Thirty-Five Relatives and Friends Greet Old Resident. Chas. Poppe Family Celebrate Too.

Mrs. J. A. Poppe has passed another milestone on life's journey and Sunday celebrated her 94th birthday surrounded by children, grand-children, great grand-children, friends and neighbors. The annual party which her daughter, Mrs. Kate Buchanan always gives at her home in celebration of the happy occasion, was the usual pleasant event, the pioneer mother being the center of much attention and showered with as many beautiful flowers as a sweet girl graduate. There were letters, telegrams and messages of congratulation from distant friends and loved ones in all of which Mrs. Poppe took the keenest interest and enjoyment despite her age.

She had the place of honor at the table where delicious refreshments were served and where she shared in the congratulations with her son, Chas. Poppe and wife of Glen Ellen who were celebrating their 40th wedding anniversary and Carl Poppe, her grandson, who had a birthday too. Beside grand-children, there were five great grand-children present, Robley Harbort, Ralph Buchan, Jr., Frederick Bulotti Jr., and the two Sholden children.

Mrs. Poppe came to Sonoma Valley 71 years ago and has resided here continuously ever since. In 1864 she moved with her husband and family from the Poppe ranch below Embury to Sonoma city where she engaged in the general merchandise business for many years. Mrs. Poppe in her 95th year is bright and active and declares her ambition to round out 100 years or even better as long as she feels well and can enjoy parties. Among the relatives here for the birthday this year were Mr. and Mrs. Ralph Buchan and little son, formerly of Honolulu.

GRIFFITH'S STATEMENT CONCERNING OIL WELL

In view of the fact that many rumors have been circulated and erroneous statements made by the press, W. B. Griffiths, of the Griffiths Oil Company, makes the following statement:

The well is 2750 feet deep, the last 500 feet being sandstone and limestone. There are 2565 feet of 8 1/4 inch casing hanging free in the slips. As small rocks were constantly falling from the back of the casing, 900 feet of water was run into the hole for pressure. When the bit broke through into the oil sand, over 20 feet, the bailer came up half full of paraffine oil; this being somewhat curdled by fresh water. After bailing two days and taking out considerable oil and water, the pressure was released to the extent that caving commenced and the tools were constantly caught.

The Company has extra casing and new drilling and sand lines ordered and within a few days will start underreaming the open hole, carry the 8 1/4 inch casing down to the top of the

Defendants Include P. Bertelotti, J. Arsur, E. Reynaud, L. Quartaroli, F. Pedroncelli, E. O. Hoyer.

Deputy Sheriffs Ryan and Eberhardt, assisted by deputies from Santa Rosa raided four places here Wednesday, secured wines and liquors in evidence and arrested P. Bertelotti, E. Reynaud, L. Quartaroli and F. Pedroncelli for violating the dry laws. The wet goods seized in the raid taxed the court room of Judge Small beyond capacity, so several barrels of wine were finally locked up in the city jail.

The defendants plead guilty to possession of the wine and liquors when their cases came up before Judge Small Thursday. Two of the defendants paid fines of \$300 each, while Reynaud, who had 60 quart bottles of red and white wine and nothing stronger, got off with a fine of \$250. F. Pedroncelli, whom the officers say had jackass brandy and a still, was represented by an attorney. He plead not guilty and will have his examination next week.

In addition to the fines paid Judge Small Thursday by the above named defendants, James Moore, who had the alternative of 150 days in the county jail or a fine of \$300 and had served 43 days of his sentence, sent down \$214 by his wife and was ordered released from custody. Moore was arrested at the time Didier Veilleux of Fetter Springs dropped dead. He had liquor on the premises frequented by Veilleux and plead guilty at that time, to possession of jackass brandy found there by the deputy sheriff.

During the progress of a dance here last Saturday night Deputy Sheriff oil sand, set and anchor the same to the 12 inch casing, put on a control head, bail the hole dry and drill farther into the oil sand. The well will then be swabbed out and tested—some expert oil men say it will probably flow.

All other reports regarding this well are not correct. If you do not understand the above, show it to an experienced oil man who can explain it to you.

The Griffiths Oil Company Well No. 5 has proven that the California retaceous has commercial oil sands and oil men now say this is an oil field and that Well No. 5 will make a commercial well.

The public need not expect to see a quantity of oil until the well is ready to bring in.

Mr. and Mrs. F. Dobbel and Mr. and Mrs. Ralph Murphy motored to Petaluma Saturday night to attend a Masonic meeting.

Mr. and Mrs. Ralph Winston and children of Point Richmond were visitors at the Trudgen home last week. Mrs. Wesley Trudgen has also been home on a visit.

REDUCED CHARGE

A suspended sentence for vagrancy was given William Sulberg, who was originally charged with burglarly in attempting to enter Duhring's store. Sulberg is believed to be mentally deficient, so Judge Small was lenient.

Ryan claims to have got wise to the fact that Napa people who were attending the dance were being accommodated with their favorite vino by Sonoma friends. The officer got on the trail of some of the celebrants and it led him to the hotel of J. Arsur. The deputy sheriff found some wine on the premises and arrested Arsur and charged him with illegal possession. The hotel man plead guilty to the charge of having wine in his possession and was fined \$250 by Judge Lester Small.

Deputy Sheriff Ryan declares that Saturday's dance was given by Napa promoters who do not like "dry" Napa and thought Sonoma might be a little moist. He declares that he hated to dampen their ardor, but that those who think they can come to Sonoma and "get by" with anything lawless, will find that the lid is clamped down here the same as in other communities. If anyone goes to pry the lid up, Ryan says he is right here to sit on it.

Believing that the early bird catches the worm, Deputy Sheriff Ryan was out bright and early yesterday morning to get the goods on the Broadway Service Station, which was under suspicion for having booze. He searched the premises, found a partly filled jug of whiskey and arrested the proprietor, E. O. Hoyer. This was Ryan's second search of the station, his first trip revealing nothing. Hoyer plead guilty and paid a fine of \$300 when he appeared before Judge Small yesterday.

COMMITTEES NAMED FOR CENTENNIAL

Publicity, Transportation and Relics Comprise Active Workers; Manager Reid Has Started Work.

At a meeting Monday night of the executive committee of the Mission centennial celebration which is to be held in Sonoma June 30 to July 4, the publicity, transportation and relics committee were named.

R. E. Perkins was selected as the auditor.

The publicity committee has already begun to function and will plan on an intensive and colorful campaign to make known the one hundredth anniversary of the founding of the Sonoma Mission and the four days' fiesta which will commemorate that historic event. The publicity committee comprises the following:

Rev. J. F. Byrne, chairman; W. L. Murphy, Colonel Parker, L. H. Goltson and George Crowe.

Transportation, which will include the perfecting of all transportation routes into Sonoma, the assurance of completed highways, special excursions, rates, etc., will be in the hands of F. T. Duhring, James Gottenberg, Fred Batto, E. T. Lindley and R. G. Lichtenberg.

A relics committee which will add to the collection already started will assemble many interesting relics to be displayed at the Mission during

Celebration Director Reid Takes Charge

Will Tell the World of Mission Days and Mission Ways in Old Sonoma During Early Days.

J. N. Reid of Sacramento, who has been named director of the Sonoma Mission centennial, has arrived in Sonoma and has already started work. Mr. Reid is exceedingly enthusiastic over Sonoma's four-day fete and has already broadcasted the following to his '49 confreres in Sacramento:

Turning back the hands of time one hundred years, a dramatized version of the founding of the Sonoma Mission is to be the principal feature of the Sonoma centennial celebration to be held June 30 to July 4 inclusive.

Garnett Holme, supported by a company of talented professional actors and local talent, will spare no expense in making this story of the long ago one of the most stupendous productions ever staged out of doors in California.

The walls of the old adobe houses of the quaint town of Sonoma will once again ring with the songs and laughter of the senorita and the cavalier. Games of bygone days will be revived, festival days dear to old and young are to be considered in this wonderful program.

The different committees will announce later some of the big things that are going to happen, but it is the absolute determination of the director to put this celebration "on the lot" and not on the letterhead.

And now Sonoma will bring history back to life with all its color and glamour, in the greatest of all celebrations—remarkably realistic and historically correct in every detail. The transformation will be complete—a living, kaleidoscopic depiction of the "Romance of Sonoma."

Don't forget to attend the annual ball given by Sonoma Lodge, I. O. O. F., at Union Hall, Saturday evening, April 7th. The usual good time awaits you. Admission 50c.—adv.

the celebration. Anyone having relics of early Sonoma is urged to communicate with the committee, A. W. Adler, R. A. Poppe, F. Borie, Mrs. Lulu Vallejo Emparan or Miss Kate McDonnell.

J. N. Reid, director of the celebration, arrived Monday from Sacramento and has established headquarters at the Sonoma city hall.

A LOOSE-JOINTED INSTITUTION FOR DELINQUENTS NOT THE KIND

The experiment which has been under way at the Buena Vista Farm for Delinquent Women for the past two years should most properly be discussed at the coming California Conference of Social Workers which is to convene during May in the Yosemite Valley.

If the organization is sincere in its purpose "to increase the efficiency of agencies and institutions devoted to this work" it should by all means study the conduct of the so-called Prison Farm in this valley. The club women of California are clamoring for the rebuilding of the Farm and its continuance, the great majority without first-hand knowledge of the institution or any thought, perhaps, beyond the idea of helping the erring sister. Granting that the State should try to salvage drug addicts, prostitutes and inebriates, a loose-jointed institution for loose people is not to be tolerated by taxpayers and least of all by a group of social work investigators.

We use the word "loose-jointed" advisedly, for the Farm is neither a farm, hospital or prison. What it really has been thus far may be rightfully termed an asylum, or refuge, without any of the discipline or restraint associated with the former or the expediency of the latter.

The Buena Vista institution, presided over by a cultured educator, a former high school teacher, has been such a charming place that it invites endless imposition on the part of the wards of the State. The pampering of the women who have been quartered in this beauty spot of California not only has been ridiculous, but can only spoil women who, later, are expected to go out into the world and make good. After the luxurious life at the Farm, what woman will want to battle with the world again? The wards of a place conducted like this Castle will sooner or later say to society: "Support us in the style to which we are accustomed or back to the Farm we go." That they should do a second or third term at the Farm and at the same time bring along their pals would not be at all surprising. After wearing real linen, accustoming themselves to electric ranges, candy pulls, cigarettes, holiday turkey dinners with place cards and favors, joy rides, lawn parties, hikes, their honor unquestioned, who would battle the hard, practical world with hall bedrooms, time clocks, factory rules and chuck?

We submit to the California Conference of Social Work and also to the Legislature and Governor Richardson the suggestion that the Home for Delinquent Women should be either a hospital or a prison, with

treatment to strengthen body and mind, and training that will equip the wards of the State to be able to earn a living in the future.

A hospital, or prison, would mean that the institution would have some one at its head experienced in medical work or with police experience. A hospital's regime is strict if it hopes to effect cures; so should be the conduct of an institution for delinquents. A prison implies discipline, not pampering, if it is to control.

Then comes the all-important problem of classification and perhaps segregation of the prisoners. How delinquent are they? How far has society let them fall before taking them in hand and showering them with State bounty? When does the State's responsibility begin? Surely before the women become convicted felons, and yet the Legislative act which created the Buena Vista Farm made it imperative that the women be convicted of an offense before they could be committed to the Farm. Why not gather them to the fold sooner? If sick, or victims of drugs, treat them in a hospital, not with a politician or social worker at its head, but a graduate physician. If defective, discipline or restrain them. Pampering does not build character for anyone, good or bad. Do we want a State asylum for these charges here? Do we want a prison for these outcast women? If so, put either in competent hands, with an accredited, definite system of maintenance, but let no taxpayer be imposed on by the plea of club women to continue the Delinquent Women's Farm as it is.

IMPORTANT LEGISLATION

The maintenance program of the State Highway Commission is one of the most important matters confronting the people of California who have invested millions of dollars in roads which must be kept up and completed. Not only the State, but Counties who share highway revenue with the State, are together interested in the passage of the bills now before the Legislature to assure necessary revenue.

Senate Bill No. 115, placing a \$3.00 license tax on each motor vehicle and limiting the weight of loaded motor vehicles to 22,000 pounds.

Senate Bill No. 191 levying a two cent license tax on gasoline and other motor fuel.

The Arbuckle Bill levying a seven per cent tax on the gross receipts of all persons, firms and corporations using the State highways for profit from freight or passenger transportation.

These three bills are important to the development of our road programs and Sonoma County representatives at Sacramento are urged to get behind these measures.

DODGE BROTHERS TOURING CAR

As Spring days approach, the demand for Dodge Brothers Touring Car mounts swiftly.

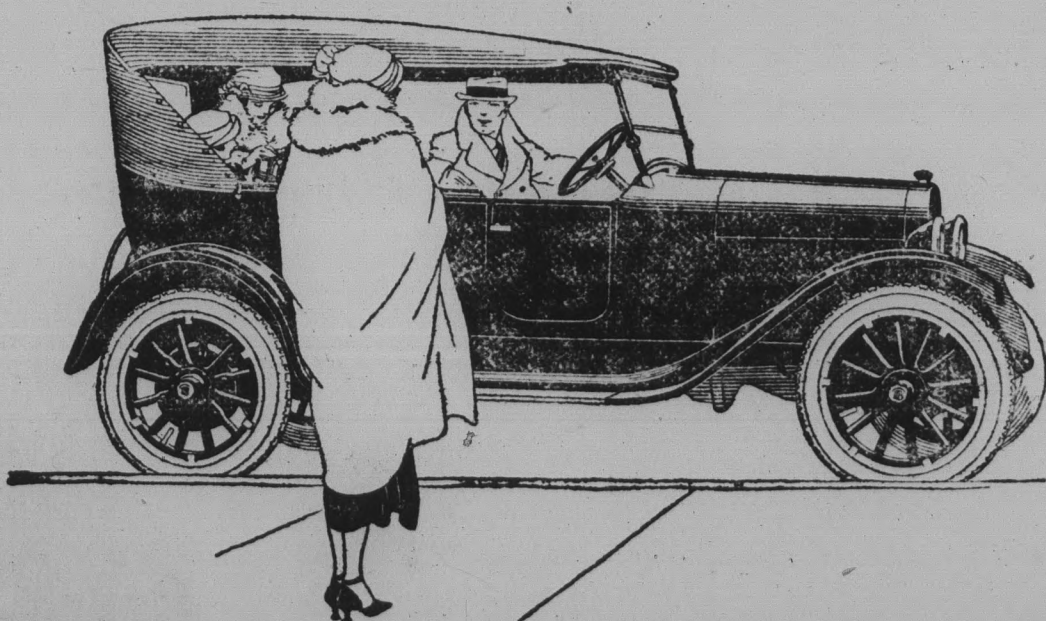

Dodge Brothers one problem, at present, is not how many Touring Cars they can sell, but how many they can build.

Never was public approval of Dodge Brothers product more obvious, and never was it more richly deserved.

Improvements, rarely spoken of but constantly being made, have brought the car to a state of perfection which can only be described as remarkable, even for Dodge Brothers.

Every part which takes a major strain is built of chrome vanadium steel. Many more pieces of alloy steel are used in vital parts than normal wear requires.

Because "Red Crown" is an all-refined gasoline every drop of which vaporizes rapidly and uniformly in the carburetor, and is completely consumed in the cylinders, giving quick starting, smooth acceleration and maximum mileage, "Red Crown" is the popular motor fuel everywhere.

Social, Club and Lodge Notes

A LOVELY WEDDING

Saturday was the wedding day of Miss Helayne Volquardsen, who at 5:30 p. m., became the bride of Lieutenant Gustav E. Rahm, U. S. N. The ceremony, performed by the Rev. Isaac Cookman, took place at the Volquardsen home, which had been transformed into a veritable bower of roses. Under a floral canopy the bride, strikingly handsome in her white crepe de chine wedding gown, cascaded with lace and wearing a filmy wedding veil with real orange blossoms, plighted her troth to the young naval officer.

A cousin, Miss Muriel Gold, radiant in a modish gown of orchid crepe, was bridesmaid. Leland Volquardsen was best man for his former ship mate.

The wedding march was played by Mrs. Harold Coops and Mrs. Ernest Straub of San Francisco sang "At Dawning."

Following the ceremony the bridal party and guests motored to the Plaza Hotel, Sonoma, where an elaborate wedding dinner was served. Places were set for 26 and the tables were prettily decorated. In addition to the excellent menu, the pyramided wedding cake and bride's cake, decorated by Mrs. Helayne Johannsen, grandmother of the bride, were cut and distributed.

After the happy couple had been heartily congratulated and an hour or more spent around the festive board, the party returned to the Volquardsen home where the bride made ready for her wedding trip. Her going away gown was of rich velvet.

The young folks motored to San Rafael and from there went to San Francisco which is to be their future home.

Wedding presents included a solid silver service and other handsome gifts.

Those who attended the wedding were Mrs. Helayne Johannsen, Mr. and Mrs. H. J. Coops, Mr. and Mrs. Harold Coops, Mr. and Mrs. Arthur Coops, Mr. and Mrs. John Golds and family of Napa, Mr. and Mrs. F. Helberg, Mr. and Mrs. E. Straub of San Francisco, Mr. and Mrs. L. Volquardsen and daughter of San Francisco, Mr. and Mrs. D. Volquardsen and Louis Volquardsen.

SOCIAL BRIEFS

A warm welcome is being accorded Mrs. Clara Lowell since her return from Los Angeles where she spent the winter with her son, Dr. Charles Lowell.

The I. O. O. F. annual ball will take place next Saturday night at the Union Hall. A fine crowd is expected.

Friends of Helen Church Schell will be interested to hear of her marriage to Thomas Minto. The wedding occurred early this year and Mr. and Mrs. Minto are now living in Ross Valley, where they have a lovely home. Mr. Minto is a member of the real estate firm of Kent & Minto.

Mrs. E. Noyes and Mrs. Fred Schell, accompanied by their daughters, Anne and Nevada, motored to Sausalito to attend a shower given in honor of Miss Marguerite Rhodes one of Sausalito's prettiest and most popular girls.

Mr. and Mrs. George Rickey of Galt visited with Mr. and Mrs. Fred Schell over the week end.

STATE LIBRARIAN WRITES UP COSTUMES OF OLD SONOMA

The wedding gown and suits of pioneer days, treasured by several prominent Sonoma Valley families are taking on a glamor with the interest being shown in the coming Mission Centennial.

Thursday night's Oakland Tribune had a splendid article on some of these old costumes with illustrations of Miss Edna Cooper, Granville Harris, Kate McDonnell and Miss Ruth McDonald of Berkeley, wearing the garb of the Sonoma pioneers. The wedding suit of J. R. Cooper who was married at the Blue Wing, a famous hotel in 1847, was donated by Granville Harris, his grandson.

Miss Edna Cooper wore dresses of both her grandmothers and Miss McDonnell, her mother's wedding gown.

The article and photos in the Tribune were by Harry C. Peterson of the State Library.

Mrs. Rhea Hannan entertained this week at a birthday dinner complimentary to her friend, Miss Marjorie Winters, of Santa Rosa. Guests included hostess and guest of honor and Messrs. Leslie Showers and Ernest Ridley. After dinner they motored to the Hippodrome.

PRICE NAMED CHAIRMAN OF CENTRAL COMMITTEE

At a meeting of the Sonoma County Central Committee held Monday with 12 of the 20 members present, Walter F. Price nominated by W. J. Hickey of Petaluma, was elected chairman of the committee to fill the vacancy made by the resignation of Judge Ross Campbell.

Glen E. Murdock of Santa Rosa was elected treasurer, succeeding Mr. Price and Ralph F. Salesburg elected a member of the committee succeeding Judge Campbell.

Don't forget to attend the annual ball given by Sonoma Lodge, I. O. O. F., at Union Hall, Saturday evening, April 7th. The usual good time awaits you. Admission 50c.—adv.

PROMINENT VISITORS

Last Sunday a number of prominent San Francisco visitors motored up to the Tavern Hotel at Verano and spent the day with their friend mine host Louis Parente. Among the visitors were Mr. and Mrs. John L. Herget, Mr. and Mrs. Thomas Burns, Robert Burns and his fiancée, and Mr. and Mrs. Eddie Diggins.

Mr. Herget is an ex-supervisor of San Francisco and was one of the police committee of the board during his tenure of office. During that time he granted Louis Parente many permits for boxing bouts and the two became close friends. Herget is himself a retired but undefeated champion of the ringside, one of the classiest middleweights ever turned out on this coast.

At the present time Herget is head of the supply department at the city hall in San Francisco and still takes an interest in the boxing game.

Eddie Diggins is a protege of his. Some 14 years ago Owen Moran, the little English fighter, was in training at Boyes Springs under Herget.

The visitors at the Tavern were more than delighted with the up to date improvements and general up-building of Sonoma Valley. Mr. Herget may build a summer home here.

VINEBURG NEWS

THE UNIVERSAL CAR

Four Reasons Why You Should Buy Your Ford Car This Month

The unprecedented demand for Ford Cars throughout the winter has taken the entire output of the Ford plants working at capacity, indicating that the demand this spring will be far in excess of the number of Ford Cars that can possibly be built.

January was the tenth consecutive month in which retail deliveries exceeded 100,000 Ford Cars and Trucks. Requirements for February the month when preparations are already under way for spring business, called for

148,407 Cars and Trucks—more than 24,000 in excess of the number we can possibly produce.

Ford dealers in many parts of the country are already finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

Your order placed now will protect you against delay or disappointment later on. It is the only way you can be assured of reasonably prompt delivery.

We consider it important to give you these facts, so that if you are planning to purchase a Ford Car, Truck or Fordson Tractor for use this Spring or Summer you can list your order at once and take advantage of our dealer's first opportunity to make delivery.

It is sometimes the case that a city or county surrounded by the halo of antiquity, is inclined to rest on its laurels and live on the glories of the past. This, however, is not going to be the history of our part of the county, if the present signs of the times mean anything.

It now seems to be a settled fact that the large hotel project, the Sonoma Mission Inn, to be carried out at Boyes Springs, will shortly be under way. This large investment will result in other projects of a substantial nature being started, and in fact the season here will open with several large new buildings completed and ready for business.

We become so used to the things which surround us, that very often they are taken as a matter of course, and it remains for some outsider, who has not been blessed with what we treat so lightly, to really grasp the unusual advantage which are ours.

This is undoubtedly true as regards the natural beauties of this Valley and, of course, the peculiarly valuable character of the mineral springs so well known to us and responsible for the growing settlement around Boyes Springs.

In keeping with this trend, and valuing the coming of the highways, a group of our aggressive business men, recognizing the opportune moment here as regards expansion and development of our community, have joined with The Index-Tribune in a definite "build at home and buy at home" advertising campaign of an educational character which should result in more enthusiastic effort on the part of the entire population of our city and valley to build and beautify.

The results already obtained by the big \$400,000 advertising campaign of Californians Inc., are already far beyond what was expected. On a single day recently no less than 50 sacks of mail went out from San Francisco in response to inquiries resulting from the campaign. This means that there has already begun an exodus from the East of families who have been "sold" as to the advantages of California through the medium of printers' ink.

An illustrated full page educational advertising campaign, sustained by a group of 12 advertisers in Sonoma and Boyes Springs will appear each month in one regular issue of the Index-Tribune and we bespeak the interest and attention of our readers to every issue. While most of the advertisers will, no doubt, reap tangible and satisfactory direct results from the campaign, we desire to call attention to the public spirit of the enterprising proprietor of the Sonoma Mission Creamery, Joseph Vella, who while not being able to look for any direct results as regards increased sales locally for the products of his plant, felt that the project from the standpoint of loyalty to this community and a desire to see it progress warranted his joining with the others in making this campaign operative here.

Every home owner is a decided advantage to any community, not only because he has a fixed investment and therefore a fixed interest among us, but because it is directly to his interest to see local business houses prosper and to this end he is far more likely to spend the bulk of his income here than to go outside.

Let us do all in our power to get more home owners in Sonoma Valley and regardless of the lure of bargains seek to trade in Sonoma with our own business men, whom we know, who help to make our city and valley what it is and who are worthy of your hearty support as a community business proposition.

HIGH SCHOOL NOTES

Apropos of the speeches on birds in English three, Mr. Golton suggested that lazy folk and night revellers slept mornings and missed the cheer of the early songsters. Whereupon a clever junior suggested that the night reveller probably heard the early songsters before retiring.

As it is sometimes necessary to leave meat out of one's diet and at other times cooked vegetables, the members of the cooking class have been making out two menus, one with out meat and the other without cooked vegetables, but each with a properly balanced ration and the necessary calories.

The horticulture class, tutored by Mr. Stenquist, are achieving great success as young farmers. Thursday morning the class went on a field trip to the old school grounds where different ways of budding and grafting were demonstrated. The kinds of budding practiced are "T" budding and ring budding and plate budding. The different kinds of grafts worked on are whip graft, cleft graft and side graft. The subject of horticulture consists of so much outdoor study that the work is healthful as well as interesting.

"And things are not what they seem," not even the bibulous-looking demijohn seen last Wednesday on the office table.

Since we can't train our neighbors' chickens to eat paper scraps, orange peel and the like, why not throw our scraps in the waste basket instead of on the school grounds?—Simple Simon.

Towners, will you ask the Freshmen what "Prometheus" is?

The Latin two class is little, but, oh, my! They have completed now at Easter vacation the regulation year's work.

Another skillful violinist has been added to the orchestra.

For hire—first class reporters. Inquire of English Room, S. V. U. H. S. The students of the Hi are buying their school pictures to have a good laugh 10 years from now.

The English III class is entering on a course of advertising journalism. The general plan is to work out a comprehensive survey of the valley for use during the centennial and for sale in book form at that time. The prune industry is occupying the attention of the class at the present time. Each member is investigating the orchard assigned to him, to turn his findings over later to a student designated to arrange all the material and write a thorough account of the whole. Other industries and phases of valley life will follow in turn until the whole survey is complete.
